

## *The Kazoos Show – Sheepvention 2018*

EMPOWERING...ENTERTAINING...EDUCATIONAL...

### **Be a part of the Radio Show – Quest for a Question!**

Professor Silly and Tulip from The Kazoos will be answering your little ones questions in a way only they can! It's entertaining, educational, a little bit silly and a whole lot of fun!

Research has found the amount of questions asked by children differs with age and gender, four-year-old girls being the most inquisitive asking 390 questions a day and at the other end of the spectrum, nine-year-old boys are more content with their knowledge, asking 144 questions per day - one every five minutes and twelve seconds.

Yes, it's safe to say that kids ask a lot of questions and there is a very good reason for this. It is how they learn about the world, it is how we ALL learn about the world around us.
